

The DecaDeck

- Cut the cards out on the dotted lines.
- You should end up with 55 cards, with 0-10 represented in:
 - numbers
 - dice
 - ten frames
 - tallies
 - fingers
- For English and Spanish videos about how to get the most out of your deck, and how to play many games, visit us on YouTube here:

THIS IS THE "ZERO" CARD FOR THE TALLY SET!

It's not a mistake!

Cut it out and keep it with the rest of the deck.
